

NAGENDRA KUMAR CHAVADAM

Nagendranani4431@gmail.com | +91 9346377891 | <https://github.com/Nagendra476>

PROFESSIONAL SUMMARY

Detail-oriented and passionate professional with hands-on experience in **SQL, Python, HTML, CSS, JavaScript, Django, and React js**, specializing in both **data Analytics** and **full-stack web development**. Skilled in using **Pandas, NumPy, Matplotlib, and Seaborn** for data manipulation, visualization, and analysis. Adept at building **interactive web applications**, developing **RESTful APIs**, and performing **data-driven problem solving** to support business decision-making. Strong ability to translate analytical insights into actionable solutions and design user-friendly, responsive web interfaces that enhance functionality and performance.

PROFESSIONAL EXPERIENCE

V Cube Software Solutions — Software Engineer — Hyderabad Dec 2025– Present

- Developed full-stack web applications using Python, Django, React JS, HTML, CSS, and MySQL.
- Built RESTful APIs for frontend-backend communication.
- Implemented authentication systems including login, registration, and role-based access control.
- Optimized database queries and improved application performance.
- Worked in an agile team environment using Git/GitHub

SKILLS

Front-End Technologies:HTML,CSS3, JavaScript, React JS

Programming: Python.

Database:MySql.

Libraries: Pandas, NumPy, Matplotlib, Seaborn.

API & Backend Integration: REST Api's,AXIOS,Fetch,Django.

UI Frameworks&Tools:Tailwind CSS,Bootstrap.

Build & Dev Tools:Webpack,NPM.

Version Control: Git, GitHub.

Learning: Machine Learning (Model Development, Data Preprocessing, Predictive Analytics)

PROJECTS

Banking Management System

Tool used: SQL, Python.

June 2025

Responsibilities:

- This Banking Management System is a secure, database-driven application designed to streamline core banking operations using Python for business logic and MySQL for backend data management
- Designed and developed a secure banking application that integrates Python for business logic and MySQL for backend data management.
- The system features account creation, login authentication, balance tracking, deposit/withdrawal functionality, and transaction history.
- Implemented input validation, constraint handling, and normalized database design to ensure data integrity and performance.
- Demonstrated skills in SQL query optimization, Python scripting, and system reliability.

Book My Order

Tool used: SQL, Python, React Js, Django, Rest Api's

July 2025

Responsibilities:

- Developed a **full-stack restaurant order management** enabling users to browse categories, view items, and place orders seamlessly.
- Designed an **admin dashboard** to add, update, and manage food menu items efficiently.
- Implemented **secure user authentication** using Django's custom user model, Built **RESTful API's** in Django and integrated them with React using Axios.
- Created a **responsive, modern UI** using CSS and reusable React components, Managed project using **Git & GitHub**, improving version control and collaboration.

CERTIFICATION

AI & ML Workshop , **EDU FABRICA , IIT HYDERABAD** (February 2023)

- Participated in a 2-day technical workshop exploring AI and ML applications and concepts.

V Cube Software Solutions— Python Full-Stack Development June 2025 - Nov 2025

- I gained hands-on experience in building end-to-end web applications using Python, Django, HTML, CSS, JavaScript, ReactJS, and MySQL.
- worked on multiple real-time projects, implementing REST APIs, database integration, authentication, and responsive UI design.

EDUCATION

Bachelor Of Technology :

DVR & DR. HS Mic College Of Technology,ECE,
Kanchikacherla, 2021 to 2025 | CGPA: 7.74

Intermediate :

Teja DVR Junior College,
Nandigama, 2019 to 2021
Percentage: 86%

Date:

Location:

Signature
